

YELLOW SUNSHINES JULY CLASSROOM NEWS

Look what we've learned!

For the month of June we had a blast exploring water. All about Dads, the ocean and America. Some of our Sunshines had very funny things to say about Dads. From what they would like to give them for fathers day to fun facts. Now that it is really heating up we are loving playing with our water table. We have also learned a lot of fun songs like "Slippery Fish" and "Deep Blue Sea". We have also been working on recognizing the first letter in our name. June has gone really fast, we are hoping to have a blast in July!

What we are learning...

We are kicking off the summer on the right foot. In July we will be exploring the rainforest, knights and dragons, dinosaurs and outer space. Be sure to keep an eye out for our dress up days. We have so many fun songs, games and activities to do, we can't wait!

Birthdays & Special Days

- July 7th: Happy Birthday Aiden Fisher!

Superstars!

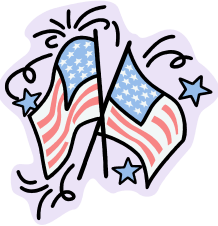

A Big High Five to...

- Nicholas for using his words more in class
- Warren for always helping clean up.
- Stephen for using his words more in class
- Benjamin S. for being able to sit and participate longer.

- Parents please remember to bring both a light blanket and crib sheet for your child.
- Please take a moment everyday and read your child's highlights.
