

Look what we've learned!

In the month of September, The Sunshines learned our colors: red, yellow, and green. They worked on letter A, B, C, number 1, and the shapes: circle and Oval. The children learned how to recognize the parts of our body, sharing, and getting to know our new friends. All of the Sunshines had fun making hand and foot prints and loved tracing their bodies on paper and painting them. When we were done, we hung them around the classroom. Parents brought in all kinds of apples, the children learned what was the same and what was different. After we talked about the apples, we tasting them.

What we are learning...
